

## Capstone News: Gallery@ Hotel Indigo

With all of the artistry and creativity that lies in Athens, Georgia, all people should have awareness and opportunity to experience all the art. The Gallery at Hotel Indigo and the GlassCube contains pieces from local artists in Athens and Atlanta all year round. Accessing our website and webapp will allow you to immerse yourself in the experience of being at the gallery and enhance it when you are there.

Since the Gallery at Hotel Indigo does not have a website, we are creating a brand new website that will contain the current gallery, archives of the previous exhibits and contact information of Didi Dunphey, the gallery curator. The webapp will provide users access to art pieces of the current gallery and an archive of previous exhibits from the gallery over the years. In addition, we are giving users the opportunity to learn about the art and the artist who created it. When inside of the gallery, art viewers will be able to insert the number associated with that piece of art to receive information about the artist through a quote, audio clip or video interview. Due to the inception of the April exhibit called Finders, based on art created from atypical objects being put together, we are getting users involved with the gallery. We are creating a game called “Build Your Own.” Since it is based on making art out of random objects, we are giving people the opportunity to create their own piece of art out of the unique items.

This website and webapp catered to the Gallery at Hotel Indigo is concentrating on maximizing the awareness of the art in Athens, allowing users to interact with the artists and giving people the opportunity to have fun and create their own piece of art.
